IP 4.0 Megapixel

4.0 MEGAPIXEL 165' IR MOTORIZED VARIFOCAL WDR OUTDOOR BULLET IP SECURITY CAMERA

High frame rate is ideal for capturing sharper detail during fast-moving activity

This Alibi 4.0 Megapixel 165' IR Varifocal WDR Outdoor Bullet IP Security Camera provides a cost-effective, professional IP security solution for monitoring your home or business.

The high-resolution IP camera features a 1/1.8" CMOS progressive-scan image sensor that delivers up to 4.0 megapixel resolution at 30 frames per second (fps). The high frame rate is ideal for capturing sharper detail during fast activity, such as speeding vehicles and money-counting.

The camera is equipped with a 2.8-12 mm DC driven auto iris motorized varifocal lens that automatically focuses and simplifies installation. The varifocal lens offers a 102° (Wide) – 38° (Tele) field of view to meet your application needs.

The camera features Advanced Infrared Technology, which includes Smart IR and Full Frame Illumination.

Smart IR reduces over-exposure of the IR LED at the center of the image without washing out the subject at close range.

This camera's 0.002 low lux rating, thanks to its Starlight sensors, improves night-time performance. Specifically designed for surveillance in low-light environments, not only does it enhance clarity, it also offers color images for low-light applications.

The 4.0 megapixel IP security camera features integrated IR LEDs that enable the camera to see up to 165' in the dark.
