INFINIAS INTELLI-M SINGLE DOOR ADD KIT WITH HID PROX READER

S-DOOR-KIT-WH

The infinias Intelli-M Single Door Add Kit with HID Prox Reader includes needed door hardware and accessories to add a single door to your network and deliver an effective, easy to install IP-based access control solution. The single door kit includes an infinias Ethernet-enabled single door controller, HID prox reader, mounting box, plus other needed accessories, so you can add a door to your network and get started with your IP-based access control solution quickly and easily. Great for retrofit installations when existing door and locking hardware is not required.

- ▶ Simple to install, mounts at the door with a surface mount box
- ▶ Door controller connects to the closest network switch with a single Cat5/Cat6 cable
- ▶ PoE (Power over Ethernet) carries both data and power for both controller and door peripheral hardware
- ▶ Peer-to-peer communication keeps data flowing even if a server connection is interrupted
- ▶ 3-state alarm monitoring and anti-passback for enhanced security
- ▶ Buffers up to 16,000 local events when disconnected from the host (so events are never lost)
- ▶ Secure transmissions with end-to-end AES 128-bit encryption
- ▶ Features 32-bit processor for enhanced speed and performance

INFINIAS INTELLI-M SINGLE DOOR ADD KIT WITH HID PROX READER, DOOR STRIKE AND SENSORS

S-DOOR-KIT-WH-ST

The infinias Intelli-M Single Door Add Kit with HID Prox Reader, Door Strike and Sensors includes the door hardware and accessories you need to get started with an IP-based access control solution. The kit includes an infinias Ethernet-enabled door controller, HID prox reader, mounting box, plus other needed accessories such as door strike and door sensor, so you can quickly and easily add a door to your network. infinias offers a variety of door add kits that provide various hardware and accessory options designed to suit your specific needs. This single door add kit is ideal for new access control installations

- ▶ Simple to install, mounts at the door with a surface mount box
- ▶ Door controller connects to the closest network switch with a single Cat 5/Cat 6 cable
- ▶ Supports one door with one or two Wiegand readers
- ▶ Features 32-bit processor for enhanced speed and performance
- ▶ PoE (Power over Ethernet) carries both data and power for both controller and door peripheral hardware.
